

We are a team of engineers specializing in water management, urban water infrastructure, hydropower, and environmental management based in Innsbruck, Austria. Our projects are primarily international, often in fascinating and "exotic" locations. Learn more about us at [www.pap.co.at](http://www.pap.co.at).

We are hiring an

# ELECTRICAL ENGINEER (f/m/d) – FULL-TIME

## ARE YOU SOMEONE WHO.....

- Is fascinated by water?
- Finds purpose in providing communities with reliable water supply?
- Takes pride in restoring rivers through state-of-the-art wastewater treatment?
- Aims to enhance power supply systems?
- Wants to contribute to making infrastructure more climate-resilient?
- Is excited about working in and for diverse cultures?
- 

## YOUR PROFILE

- Completed education (HTL, FH, UNI) in electrical engineering, mechatronics, or a similar field.
- Professional experience in a design/planning office.
- Expertise in electrical and control systems, including low and medium voltage.
- Familiarity with measurement and control systems, SCADA experience is a plus.
- Proficient with MS Office.
- Basic understanding of fluid mechanics (water and hydraulics).
- Meticulous, self-reliant, and organized work style.
- A team player with confidence, commitment, and flexibility.
- Good to excellent English skills.
- Willingness to travel.

## YOUR ROLE

- Plan and design electro-mechanical systems for pumps and other facilities as part of major infrastructure projects, including small-scale hydropower plants.
- Dimension and estimate costs for control systems, low-voltage distribution systems, and transformers.
- Develop SCADA concepts and oversee their implementation.
- Contribute to feasibility studies, preliminary design, detailed design, construction supervision, and commissioning.
- Prepare tender documents and bills of quantities.

## WE OFFER

- Flexible working hours.
- Laptop and company phone provided.
- Challenging, varied tasks with a high level of autonomy.
- Flat hierarchies and a supportive work environment.
- Competitive annual gross salary based on your qualifications, starting from €45,000 (overpayment based on experience the collective agreement for information and consulting professionals).
